Report of NationsLine Virginia, Inc.
Regarding CPNI

NationsLine Virginia, Inc. does not use any agents or third parties to market its telecommunications services. It does utilize its own in house sales force. This sales force would use CPNI information to market offerings within the same service category as service already provided to the customer. This information would be used to provide the customer with premises equipment, voice mail, maintenance and repair service, as well as various vertical features. The company maintains records of all campaigns of this nature. All market campaigns are approved by the company president.

Situations could arise where the company would need to use this information to protect its rights and/or property or to protect its customers from fraudulent, abusive or unlawful use of service.

For the most part company employees are not privy to this sensitive information. The employees that would be privy to it are trained to know when this information can and cannot be used. Violations of this procedure would be handled by verbal warnings for first offenses, written warnings for a second offence and termination if the behavior continued.

Customers are provided with the call details for long distance and any extended area calling on their bills. Any additional requests for this information would be provided by the reprinting and remailing of the bill to the billing address listed on the account. This information is not mailed to an alternate address or provided by any means other than the bill to customers.

The company does receive requests for this type of information as well as local call usage from third parties. This information is distributed to third parties only when a subpoena is submitted to the company. The information is then sent only to the party listed on the subpoena. These subpoenas are kept on file for a period of three years from the date of receipt.
